

with Ashlee Trempus, SignOn Connect

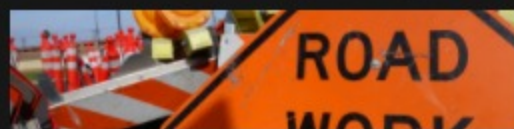

Posted Sep 07, 2017

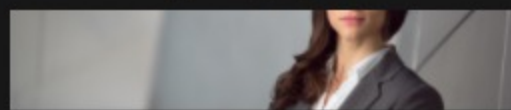

SignOn, a "Virtual Immersion Program," connects the hearing and deaf communities through authentic learning interactions. Through SignOn, ASL learners have the unique opportunity to communicate one-on-one with a Deaf ASL Ambassador that has grown up using ASL as a first language. SignOn gives people the confidence they need to engage with the Deaf Community while practicing and retaining language techniques. Ashlee Trempus of [SignOn Connect](#) talks about how they are helping to give people the confidence they need to engage with the Deaf Community while practicing and retaining language
